FIFA (from Electronic Arts) is a football (soccer) video game franchise. The game is developed by EA Canada and published by Electronic Arts on PlayStation 3, PlayStation 4, Xbox 360 and Xbox One. FIFA is the most popular videogame franchise in the world and the number 1 selling videogame in the UK. It has won numerous awards including a BAFTA for 'Best Sports Game' and 'Sports Game of the Year' by the Academy of Interactive Arts and Sciences. FIFA 14 is currently the highest-selling videogame of all time. I currently own FIFA 13 on PC, so what are the advantages of FIFA 12 on PS3? There's 3 main advantages to me: - Testers will be able to test and give feedback on the game as it is released - I will be able to use a controller and not have to worry about being a 'touch' user like I have to be on mobile devices. I will also be able to play and share on a television. - 12 is the year it released What features of the game do you like and what are the least liked? There's so many features of the game I think it would take pages to list them all. - Improved player faces and facial animations: It seems like players were holding their breath and I don't know how they have time to

breathe. (It is not just players, the whole game feels much more animated.) - New broadcast quality pitches: It's the closest you get to real grass. But there are a lot of glitches. Like, will my ball hit the bottom rail of the goal? - The gym is improved: I was really hoping they would redesign the team and game as a whole and I was very disappointed with this and FIFA 14. But, this has definitely improved the game in areas and that has to be a good thing. - Play passing and shooting on the same screen: It's a lot better because when you're trying to shoot, I can see my teammates more clearly. It's easier for me to see if they are open. - Speed of the players. Not much of an improvement but more realistic. (Realistic as in not so real. My quick kick/pass is quite fast, but I actually get way slower when I try it in the game.) - A new coach: It's a coach that is more focused on managers than coaches. It feels bc9d6d6daa
