Allows the user to export the crack video into an AVI file to upload to Ytube, etc. Reply.Since its inception, there have been many thousands of land based water (ocean) waves in the past decades. The number of people directly or indirectly affected by the different types of waves and their effects is growing exponentially. Artificial waves are used as entertainment and for scientific purposes. However, their use is usually recreational and their level is maintained to a certain extent in order to keep the user safe. For example, "body surfers" use inflatable rafts called "surfing pontoons" and "wave runners" use swimming pools. Even though there are waves in the ocean, the blue ocean, and in lakes, rivers, and watercourses, the ocean waves have been attracting most attention. Ocean waves have special characteristics, which impact many different types of people. Some of these people include tourists, travelers, marine biologists, fishers, surfers, swimmers, divers, skaters, etc. The main wave patterns in the ocean are, in descending order, ocean swell, ocean swell break, ocean swell period, ocean swell period break, ocean period swell, ocean period swell break, ocean period swell break period, ocean swell break period, ocean wave, ocean waves break, ocean waves period, and ocean waves period break. Ocean swell is a wave which is caused by the wind rising from the sea. The crest of the ocean swell is longer than the trough and the duration of the swell is around 24 hours. Ocean swell break is usually caused by wind blowing over or through a steep cliff, and the pattern is different from the ocean swell. Ocean
